HONESTY AND DECENT SPEECH

Address of President Roosevelt at Quarterly Meeting.

AUDIENCE OF TWO THOUSAND

RAINY WEATHER KEPT MANY FROM ATTENDING.

Oyster Bay, N. Y., Aug. 16.-President Roosevelt delivered the principal address at the quarterly meeting of the Society of the Holy Name of Brooklyn and Long Island held here today. Decency of speech and conduct constituted the theme of his address, which was enthusiastically applauded by an audience of more than 2,000 persons chiefly men.

sons, chiefly men.
During the afternoon special trains brought hundreds of members of the society to Oyster Bay from Brooklyn and western Long Island. Threatening weather kept many away, but although a light rain fell during the exercises, the crowd remained banked about the flag-decked stand on a beautiful hill opposite St. Dominic's Catholic church.

As President Roosevelt drove up to the stand in a closed carriage, accompanied by Captain W. H. Brownson, superintendent of the naval academy; panied by Captain W. H. Brownson, superintendent of the naval academy; Secretary Barnes and a representative of the society, he was accorded an enthusiastic reception, a band meanwhile playing "Hall to the Chief."

After the audience had sung "America," Father Power, rector of St. Dominic's, introduced the president in a felicitous speech, in which he spoke of the esteem in which Mr. Roosevelt is held by the Catholics of this country.

held by the Catholics of this country.
When President Roosevelt rose he was greeted with prolonged cheers and it was a full minute before he was able to proceed. He said:

Roosevelt's Address.

"Very Reverend Dean, Reverend Clergy and You of the Holy Name So-Clergy and You of the Holy Name Society: I count myself fortunate in having the chance to say a word to you today, and at the outset let me, Father Power, on behalf of my neighbors, your congregation, welcome you here to Oyster Bay. I have a partial right to join in that welcome myself, for it was my good fortune in the days of Father Power's predecessor, Father Bellord, to be the first man to put down a small contribution for the erection of the church here. I am particularly glad to see such a society as this flourishing as your society has flourished, because the future welfare of our nation depends upon the way in which we can combine in our men, in our young men, decency and strength. Just this morning, when attending services on the great battleship Kearsarge, I listened to a sermon addressed to the officers and enlisted men of the navy, in which the central thought was that each American must be a good man or he could not be a good citizen. And one of the things dwelt upon in that sermon was the fact that a man must be clean of mouth as well as clean of life, must show by his words as well as by his actions his fealty to the Deity and the Savior, if he is to be what we have a right to expect of men wearing the national uniform.

Foul Speech Condemned. I count myself fortunate

Foul Speech Condemned.

Foul Speech Condemned.

We have good seriptural authority for a statement that it is not what comes to a man's mouth, but what goes out it that counts. I am not addressing akings, or I should not tage the trouble come here. I am addressing strong, torous men who are engaged in the dive hard work of life, and life to be rith living must be a life of active and rd work. I am speaking to men enged in the hard, active work of life, therefore, men who will count for od or for evil, and it is particularly insuments upon you who have strength to nonorable. Every man here knows temptations that beset all of us in world. At times any man may slip. not expect perfection, but I do exgenitive and sheere effort toward g decent and cleanly in thought, in I and in deed.

being decent and cleanly in thought, in word and in deed.

"As I said at the outset, I hall the work of this society as typifying one of ihose forces which tend to the betterment and uplifting of the social system. Our whole effort should be toward securing a combination of the strong qualities which we term virtues in the breast of every good citizen. I expect you to be strong. I would not respect you if you were not. I do not want to see Christianity professed only by weaklings; I want to see it a moving spirit among men of strength. I do not expect you to lose one particle of your strength or courage by being decent. On the contrary, I would hope to see each man who is a member of this society, from his membership in it become all the fitter to do the rough work of the world, all the fitter to work in time of peace, and if, which may heaven forbid, war should come, all the fitter to fight in time of war. I desire to see in this country the decent men strong and the strong men decent, and until we get the combination in pretty good shape we are not going to be by any means as successful as we should be.

Not Smart to be Wicked.

Not Smart to be Wicked.

Not Smart to be Wicked.

"There is always a tendency among very strong men and among boys who are not quite young men as yet, to think that to be wicked is rather smart; it shows that they are men. Oh, how often you see some young fellow who boasts that he is going to see life, meaning by that that he is going to see that part of life which it is a thousand-fold better if it remains unseen. I ask that every man here constitute himself his brother's keeper by setting an example to that younger brother which will prevent him from getting such a false estimate of life as that. Example is the most potent of all things. If any one of you in the presence of younger boys, and especially the younger people of your own family, misbehave yourself, if you use coarse and blasphemous language before them, you can be sure that these younger people will follow your example and note your precept. It is no use to preach to them if you do not act decently yourself. You have got to feel that the most effective way in which you can preach is by your practice. Just as I was driving up here a friend who was with us said that in his experience the boy who went out into life with a foul tongue was apt so to go because his kinsfolk, at least his intimate associates themselves, had a foul tongue. But while the life in the family cannot do everything, while the associations or friendship cannot do everything, still the friends, the father, the elder brothers, can do most toward seeing that the boys as they become men become clean and honorable men.

Courage and Manliness.

orable occurage and Manliness.

"Thave told you that I wanted you not only to be deem but to be strong. The boys are not going to admire virtue that is of a proper of the municipalities of the boys are not going to admire virtue that is of a proper of the municipalities of the boys are not going to admire virtue that is of a proper of the municipalities of the boys are not going to admire virtue that is of a proper of the municipalities of the boys are not going to admire virtue that is of a proper of the municipalities of the boys are not going to admire virtue that is of the municipality of the proper of the municipality of the proper of the municipality of the boys are not going to defend any three properties of the municipality of the municipality of the properties of the municipality of the municipality of the properties of the municipality of the municipality of the properties of the mun

NEW SET OF CHINESE REGULATIONS PREPARED BY COMMISSIONER SARGENT

Washington, Aug. 16.—A new set of Chinese regulations, prepared by Commissioner General of Immigration Sargent and approved by Secretary Cortelyou of the department of commerce and labor, jurisdiction of the matter of the exclusion of Chinese having been transferred from the treasury to the latter department, were made public today and are now ready for distribution. These rules designate what Chinese persons are permitted to land at ports of the United States under the provisions of the laws and treaties, to-the commissioner general of immigration.

is no good of your preaching to your boys to be brave if you run away. There is no good of your preaching to them to tell the truth if you do not. There is no good of your preaching to them to be unselfish if they see you selfish with your life, assregardful of others yourself. We have a right to expect not only that you will come together in feeling like this; that you will join in building up such a great and useful association as this, but we have a right also to expect that in your own homes and among your own associates you will prove by your deeds that yours is not a lip loyalty merely, that you will show in actual practice the faith that is in you.

Honesty Comes First.

Honesty Comes First.

"Now, friends, that is all I have to say. I have come here merely to greet you and to say how I welcome the work that is being done by this society. In the analysis, the whole future of the state depends upon the average citizen having in his nature the mixture of strength and honesty, which make in their sum what we call good citizenship, to the making up of which go many qualities, but three above all. In the first place the quality of honesty; we must have that first. I am using it in its broadest sense—honesty, including decency in private life, cleanliness of word, of speech as well as of life, decency toward the state, including honesty which, if it is really possessed, stands at the basis of patriotism itself; that is indispensable."

The president concluded by referring briefly to the civil war and touching on patriotism.

tered his carriage and had been driven away.

Some Catholic prelates of this diocese spoke briefly in continuation of the meeting, after the president's departure. The meeting is said to have been the largest in the history of the Society of the Holy

COLORED MAN'S OPINION.

Bishop Shaffer Speaks on the Subject of Lynching.

Helena, Aug. 16.—"The negroes do not seek for special examination nor special favors, but simply for an open door of opportunity to make the best of themopportunity to make the best of themselves and to contribute their quota to the advancement of the nation and the human race." Thus spoke Bishop C. T. Shaffer of the African Methodist Episcopal church, who is in the city for a few days.

"What do you think of the proposition as advanced by John Temple."

tion as advanced by John Temple Graves at Chautauqua?" Bishop Shaf-fer was asked.

'Mr. Graves is like almost any other "Mr. Graves is like almost any other man from that section of the country on that subject," replied the bishop. "He is governed rather by his prejudices than by mature and just judgment. There is no necessity for a servaration of the races. The negro, as is the case with every other race variety. has rights that ought to be respected by every other variety of the human family. They are comprised in the Declaration of Independence—the right to life, liberty and the pursuit of hap-piness in this country or any other country where his lot might be cast.

"The question that seems to be agi-tating the public mind, the unmentionthree-fourths of the lynchings and murders have been for the crimes of theft, manslaughter and murder. No,

MINERS ARE ORGANIZING.

Eight-hour Day Question Will Come Up in Colorado.

Denver, Aug. 16.—A News special from Florence, Colo., says that a mass meeting of coal miners was held today to organize the men of that district and bring them into the United Mine Workers of America. The meeting was addressed by L. Gehr, organizer for Colorado at large; Duncan McDonald. who represents the United Mine Workers in a similar capacity in the state of Illinois, and Charles Demalli, organizer for the Trinidad (Colo.) district. After the meeting adjourned a large number of the miners present signed the roll of membership. It was stated that as soon as the field was thoroughly organized the miners of the northern coal fields would help the southern Colorado men in a stand for the eight-hour day, abolishment of company stores, a better system of ventilation in the mines and recognition of their union when the time is ripe. It was announced that John Mitchell, president of the United Mine Workers of America, will come to Colorado and inaugurate a movement for the estab for being the eight-hour day.

FAVOR PANAMA CANAL.

Numerous Petitions Sent to Government of Columbia.

Panama, Aug. 16.—The following tele-gram in favor of the Panama canal vas sent this morning: Vice President of the Republic,

Numerous municipalities congress to approve the Hay-Herreran treaty, which signifies the salvation of the isthmus. I am sending by mail the riginal petitions. Inform the house of tatives, the senate and public.

RICHFIELD HAPPENINGS.

The Petition of the "Dry Lotters" Will be Granted.

Will be Granted.

Richfield, Aug. 15.—One of the most important meetings the city council has held in this city for a long time was held last night, all present excepting the mayor. The petition of the "dry lotters," who asked the council to aid them in getting water to their land, the committee to whom the matter was referred favored granting so far as possible the betition, on the following terms and conditions:

That the city accept a deed of trust and absolute right of control from each lot owner of water from the Sevier Valley Canal company representing four shares of capital stock of that company, and distribute the same to said lots so long as the owners of such capital stock retain the title thereto and pay all assessments on it; that from Oct. I to March 31 of each year all the waters owned or controlled by the city be distributed proportionately where practicable to all lot owners, the owners to make proper canals for the committee also reported that owing the content of the committee and reported that owing the content of the committee and reported that owing the content of the committee and reported that owing the content of the committee and reported that owing the content of the committee and reported that owing the content of the committee and reported that owing the content of the city of the content of the city of

same, e committee also reported that owing he uncertain condition of the water it could not be determined what be the actual water supply of the

flow it could not be determined what may be the actual water supply of the city.

The committee also recommended, regarding the southern dry lot owners, that the water should be distributed to them, if the owners of the lots will transfer to the city by deed of trust, for the irrigation and use on any of their lots and a right to control and regulate the same; that in that event the city should distribute the waters to the lots. The committee also recommended that if the financial condition of the city permitted the western water main pine should be extended one block further south.

This means that there will be a great many lots redeemed that are now practically worthless, and means a great deal to this city and to the lot owners. The time stipulation is given as six months from Oct. 1, 1903; that is for the southern lotters, who had put in a petition asking the council to grant the same privileges granted to the dry lotters. Thus two sections of the city are benefited and great good will no doubt result.

On report submitted by the city attorney the petition of W. H. Seegmiller and others, asking for an electric light franchise, the petition was granted, providing that work must begin on the proposed plant before Ian. 1, 1905, and that the electricity he supplied within the city of Richfield within four years from the date of the said franchise, or the franchise becomes void.

Bills to the amount of \$784.69 were allowed, the greater part of the amount being for the new waterworks.

After other minor matters the council adjourned.
